

Wind & Hail Damage to Residential Roofing Systems

Goals of Exterior Inspection

- ◆ **Determine Size of Hail**
- ◆ **Direction of Storm**
- ◆ **Physical Damage Assessment**

Dents in Furnace Vent Cap

Wind Damage

- ◆ **Inspect Roof Surfaces for Missing Tabs or Tabs Displaying Wind Deformation**
- ◆ **Wind Damage Usually Removes Tabs or Deforms Them (Horizontal Creases)**
- ◆ **Loose Tabs do not Indicate Wind Damage**
- ◆ **Note Location of Fasteners; it Should be Below the Sealant Strip.**
- ◆ **Review Weather Data**

Missing Shingles
